Subject: State Implementation Plan Submittal, NSAQMD Rules 428 and 513

Dear Ms. Sutkus:

The Northern Sierra Air Quality Management District (NSAQMD) is hereby submitting Rules 428 ("New Source Review Requirements for New and Modified Major Sources in Federally Designated Nonattainment Areas") and 513 ("Emissions Statements and Recordkeeping") as revisions to the State Implementation Plan. Rule 428 is a new rule, intended to meet the various New Source Review rule requirements of the Clean Air Act. Rule 513 is a replacement rule, intended to meet the requirements of the Clean Air Act, Title 1, Part D, Section 182 (a)(3)(B): Emissions Statements. It supersedes the previous Rule 513 ("Source Recordkeeping") that has already been approved into the SIP (73 FR 39237).

Since 428 is entirely new and 513 is vastly different from the previous Rule 513, there is no strikeout-underline version for either. There were no public comments received on either rule.

The Western Nevada County portion of the NSAQMD is Moderate nonattainment for the 2008 federal 8-hour ozone standard.

If you have any comments or questions, please call me at (530) 274-9360 x106.

Sincerely,

Samuel F. Longmire,
Air Pollution Control Specialist III
